

The Gymnasium Ohmoor

Our school

Our school is in Hamburg.

It's in Niendorf at Sachsenweg 76. It isn't old or new. The school yard is big and cool.

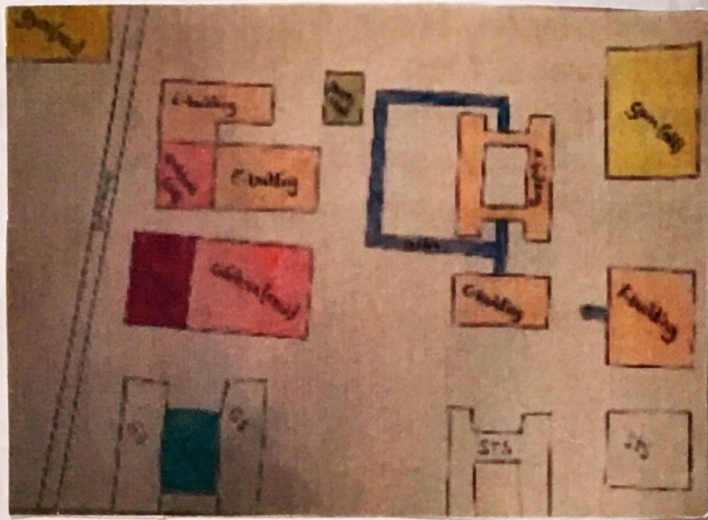

We've got many clubs, places and peoples.

At our school there are ca. 1300 students and 120 teachers. I think our school is beautiful.

The places

The school has many places: two cafeterias, two gyms, six buildings for classrooms and a big school yard with a climbing frame. My favourite places are the gyms and the new cafeteria. The other cafeteria is next to the E-building and the new gym is on the other side of the street.

The people

We have many people at our school. The teacher and students, the mamas canteen team, ... Our teachers are nice. We've got a student council.

They are the chairperson for students. There are 1420 people at our school. That's much!

The goats

Our five animals at school are the goats. They're very nice. There are: Emma, Balou, Else, Carlotta and Tom. Mat and Glöckchen was also goats but they died.

The clubs

On our school are many different clubs. You can go in a club if you want. There are: culture club, a math club, the student council, the klima club and so on. You can see all of them on the Homepage. In the "Ganztag" are too many clubs. For the student council you must be a class president.

The "Ganztag"

After school we can go in the "Ganztag". There we can play with other friends and do cool things. The "Ganztag" is next to the cafeteria. There are four rooms: the ramp room, the gymnastic room, the chill room and the group room.
