

# Our School

Our school is in Hamburg-Niendorf. The address is Sachsenweg 76 in Hamburg. It is a German „Gymnasium“.

## People in our school

We are 1.300 students and 120 teachers. In each teacher group there are 29 students with one or two teachers. When you come to this school, you can wish to be with your friends. Gymnasium Ohmoor is the biggest school of Hamburg.

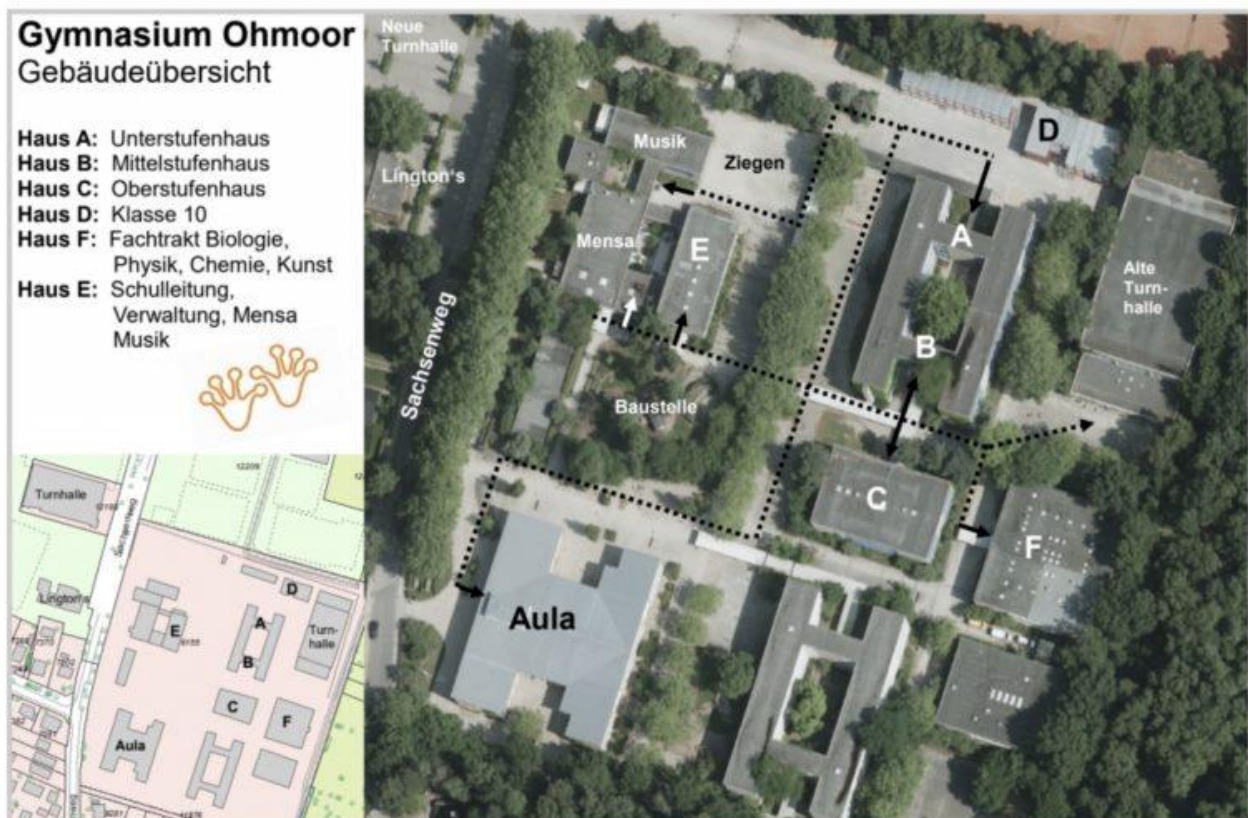

## Places here

We have a cafeteria and lots of houses. They have letters A-F. The starters from class 5 are in house A. In house B, C and D there are the older students.

In house F are the rooms for Science and Art. Music lessons are in house E with the rooms of the school director.

In front of house A is a big jungle web to climb.

Our aula is in the elementary school / “Grundschule” next to our school. Here is the map of our school:

### The Animals

We have got animals on our school. They are goats. In the breaks we can go in their stall and play with them and feed them (only grass and leaves!). In our school there is a goats team and they clean their stall. It is important that the goats do not eat sweets.

### Clubs and fun

Because we are the biggest school of Hamburg, our school has got many clubs. There are tennis, choir, Art, yoga, maths, German, graffiti and many more clubs. Try them out, it is great fun!

### The school magazine

We have got on our school a school magazine. The name of the magazine is ANONYM.

Come and see our nice school!
